# 1 Approved Qualifications Procedure

NCC Education allows direct entry to qualifications where a candidate has previously satisfied the relevant entry requirements. This document contains a detailed list of those qualifications which have been pre-approved to offer direct entry onto an NCC Education programme.

## 2 NCC Education Exemptions Procedure

NCC Education allows exemptions for certain qualifications, up to a maximum of 60 credits. Candidates should apply for exemptions BEFORE they are registered onto a unit. Requests for exemptions from units where assessment has already been sat and failed by the candidate will always be refused.

This Direct Entry and Exemptions document contains a detailed list of the qualifications and units for which exemptions are granted, and the corresponding exemptions permitted.

### 2.1 Applying for Credit Exemptions for a Qualification which has been authorised by NCC Education

Centres should refer to this document for confirmation that the qualification is authorised for credit exemptions, and to which units the exemptions apply. Exemption requests will not be accepted directly from individual candidates.

The Centre should complete form **AQ\_03\_Exemption Claim Form** (available on NCC Education's website) and email the completed form to their regional Academic Development Manager, along with a copy of the original certificate awarded to the individual, as proof that he/she has achieved the qualification.

Centres should send only those certificates relevant to the exemption request. If the candidate is already registered with NCC Education, Centres should supply NCC Education with the candidate's NCC Education ID number in the relevant field of the Exemption Claim Form.

Upon receipt of the exemption request, NCC Education will confirm receipt by either acknowledging acceptance of the request or querying any matters until they are resolved. The credit exemption will then either be applied immediately or held in a pending file until NCC Education receives the registration through the online registration system.

No reduction in fees will be given should a candidate be granted a credit exemption.

### 2.2 Applying for Credit Exemption for a Qualification which has not been authorised by NCC Education

In this event, the Centre should complete form **AQ\_04\_Non-Standard Exemption - Direct Entry Route Request Form** (available on NCC Education's website), and send the completed form to their regional Academic Development Manager. The submitted form must be accompanied by supporting documentation containing full details of the qualification being considered for exemption, including:

- programme and/or unit learning outcomes

- syllabus or course outline
- statement of guided/non-guided learning hours
- sample assessment(s)
- statement of approval from local regulator or government
- a copy of the qualification certificate awarded to the candidate.

Once the application has been reviewed by NCC Education, the regional ADM will reply formally, either granting the exemption or refusing the request. An explanation will be provided, if desired, when a request is refused.

No reduction in fees will be given should a candidate be granted a credit exemption.

## 2.3 Applying for Direct Entry to an NCC Education programme

In the event that a candidate wishes to apply for direct entry onto an NCC Education programme, the Centre should complete form **AQ\_04\_New Exemption – Direct Entry Route Request Form** (available on NCC Education’s website), and send the completed form to their regional Academic Development Manager.

In the event of the candidate holding a qualification listed below as approved to grant direct entry on to an NCC Education programme, the submitted form must be accompanied by a copy of the qualification certificate awarded to the candidate. In the event that the candidate holds a qualification which is not listed in this document, the submitted form must be accompanied by supporting documentation containing full details of the qualification to be considered for direct entry, including:

- programme and/or unit learning outcomes
- syllabus or course outline
- statement of guided/non-guided learning hours
- sample assessment(s)
- statement of approval from local regulator or government
- a copy of the qualification certificate awarded to the candidate.

Once the application has been reviewed by NCC Education, the regional ADM will reply formally, either granting the direct entry onto the programme requested, or refusing the request. An explanation will be provided, if desired, when a request is refused.
